When/where will the shortlisted ideas be announced?

1. Notification about selected teams will be uploaded on the portal.
2. You may also keep a track of all the latest announcements and updates on the website---

Is it open to people outside of technology?

All disciplines are welcome. We need participants from diverse academic backgrounds and disciplines to come up with innovative solutions, whether they're STEM, social science or communication majors; technologists; writers; artists and graphic designers; or any other disciplines. The more diverse your team, the more competitive and innovative its solution will be.
